

Welcome to Flowstate

If you can read this, everything worked – this page started as ink on paper.

Write on paper. Capture it with the Flowstate app, or email it from your e-ink tablet. A minute later it lands in your vault as clean, searchable text – filed wherever you told it to go.

The words stay yours. Flowstate just does the typing.

You have 50 free credits – one page of handwriting or one minute of audio each.

Go scribble something.

– Raj and Rob
